DETAILED ACTION

Application Status

Claims 1-20 are pending in the application.

Applicants amendment to the specification in Paper No. 2, filed 03/30/01 is acknowledged.

Lack of Unity

1. Lack of unity is required under 35 U.S.C. 121 and 372. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

Group I, claim(s) 1-4 and 11-14, drawn to an enzyme having an activity to release saccharides from a dissacharide glycoside and a method for producing a non-recombinant enzyme.

Group II, claim(s) 5-10, 13 and 14, drawn to a polynucleotide encoding an enzyme having an activity to release saccharides from a dissacharide glycoside, a vector, a host cell, and a method for producing a recombinant enzyme enzyme.

Group III, claim(s) 15-20, drawn to a method for modifying the composition of a material containing a dissacharide glycoside using an enzyme having an activity to release saccharides from a dissacharide glycoside.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical feature for the following reasons: The enzyme of Group I was known in the prior art (see for example Ijima et al. *J Agric Food Chem* 46:1712-1718; IDS reference and cited in search report) and therefore Groups I-III share no special technical feature as defined by PCT Rule 13.2. Furthermore, the enzyme of Group I and the polynucleotide of Group II are unrelated and chemically distinct entities and the method of Group III does not share any technical feature with the polynucleotide of Group II because the method of Group III neither makes nor uses the polynucleotide of Group II.

Art Unit: 1652

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Steadman, whose telephone number is (703) 308-3934. The Examiner can normally be reached Monday-Friday from 7:30 am to 2:00 pm and from 3:30 pm to 5:30 pm.
